

Additional tiers of element only available on enclosure 12" and taller

ELEMENT MODEL	DIM. X
¾" Tube	2 ¾"
1" Tube	3"
1 ¼" Tube	3"

- ① Fasten hanger strip to wall at required height. Ensure strip is level and that the hanger strip runs the entire length of enclosure.
- ② Mount BKTCE brackets flush to and under the hanger strip.
- ③ For 2 tier elements, mount and fasten BKTAT brackets on to the BKTCE brackets.
- ④ Install cradles onto brackets by placing cradle on bracket and insert the plastic fastener through the slot in the cradle into the hole in the bracket.
- ⑤ Install heating element onto BKTCE brackets (and BKTAT brackets if used). Ensure tubing rests on cradle.

- ⑥ Place top of enclosure panel onto hangerstrip and snap bottom of panel onto the BKTCE bracket.
- ⑦ For 2 or more side by side enclosure panels, join by an internal panel joiner. (See Detail 'A')
- ⑧ If an access panel is used, join access panel to enclosure panel by a joiner strip and an additional mounting bracket. (not shown)
- ⑨ Hook bottom of trim strip on bottom of enclosure panel, swing trim up and hook top of trim on to the top of enclosure/hanger strip. For corners (9a), fasten at top by #10 screws.
- ⑩ If an access door is required, locate it on enclosure panel, cut out a 5 1/2" square opening and drill four 1/4" diameter holes on corners of 6 1/2" square. Mount and fasten access door assembly.
