

**NOTE: Element with 4" x 4" fins CANNOT be used.**

- ① Fasten hanger strip to wall at required height. Ensure strip is level.
- ② Mount BKTEO brackets at required distance below the hanger strip.
- ③ For 2 tier elements, mount and fasten BKTEO brackets at 6" spacings.
- ④ Install heating element onto BKTEO brackets, ensure tubing rests on cradle.
- ⑤ Place top of enclosure panel on to hanger strip and swing bottom of panel down to the wall and fasten into wall.
- ⑥ For 2 or more side by side enclosure panels, join by a panel joiner.
- ⑦ If an access panel is used, join access panel to enclosure panel by a joiner strip and an additional mounting bracket. (not shown)
- ⑧ Place trim strip on top of enclosure panel and swing bottom of trim down to wall and fasten to wall. For corners (8a), fasten at top and bottom by #10 screws.
- ⑨ If an access door is required, locate it on enclosure panel, cut out a 5 1/2" square opening and drill four 1/4" diameter holes on corners of 6 1/2" square. Mount and fasten access door assembly.
- ⑩ Correct element orientation when using 2 3/4" x 4" element for slimline enclosure.
